

## PROCEDURES FOR RUNNING A REPORT OF TITLES “NOT PURCHASED” FROM THE ALLIANCE

To run a “Not Purchased” report for the Alliance, you will need to open the Search menu and click on “Consortial Titles”.

The screenshot shows the GOBI 3 website interface in a Windows Internet Explorer browser. The address bar displays <http://www.gobi3.com/hx/Gobi.ashx?location=welcome>. The main navigation bar includes links for Search, Notifications, Folders, Reports, Options, Library, and Quick Links. The Search menu is expanded, showing options such as Add Titles by ISBN, Advanced, Consortial Titles (highlighted with a red box), Library Activity, Manage Saved Searches, Peer Comparison Titles, Recommendations (GobiAlerts), Selections, Slips, Standard, Search Approvals, Search Continuations, Library Continuations, Titles and Place Orders, and Volumes Shipped. The right sidebar features a Publisher Corner with ABC-CLIO and OXFORD UNIVERSITY PRESS advertisements. A news banner at the bottom reads "YBP Library Services Announces Full Cataloging Support for Oxford Scholarship Online eBook Collections". The footer contains the text "GOBIPROD3 2.02.016 A" and the URL <http://www.gobi3.com/hx/gobi.ashx?location=searchconsortialparms>.

This will take you to a screen that lets you create the query. It looks like this:

The screenshot shows a web browser window titled "GOBI 3: Search Consortial Titles - Windows Internet Explorer". The address bar shows the URL "http://www.gobi3.com/fhx/gobi.ashx?location=searchconsortialparms". The browser's menu bar includes "File", "Edit", "View", "Favorites", "Tools", and "Help". The page header features the "GOBI 3" logo, a "Quick Search:" input field with a "Go" button, and navigation links for "Standard Search", "Advanced Search", and "Slip Search". On the right side of the header, there are icons for "Site Map", "Help", "Contact Us", and "Log Out". Below the header is a blue navigation bar with tabs for "Search", "Notifications", "Folders", "Reports", "Options", "Library", and "Quick Links".

The main content area is titled "Search Consortial Titles" and includes a note: "\*denotes a required field". The form is organized into several sections:

- Consortial Activity:** Radio buttons for "Titles acquired by consortium", "Titles not acquired by consortium" (selected), and "All titles, acquired or not acquired". A checkbox for "Exclude my library's acquisitions" is also present.
- Universe:** Checkboxes for "YBP titles" (checked), "L&C titles", and "Out of print".
- Content Levels:** Checkboxes for "Juvenile", "Popular", and "Basic Studies".
- Binding/Format Preference:** Radio buttons for "No preference", "Prefer cloth" (selected), "Prefer paper", "Prefer eBook", and "eBook only".
- Consortium\*:** A dropdown menu currently set to "Orbis Cascade Alliance".
- Date Profiled:** A date range selector.
- Title:** Radio buttons for "Begins" and "Keyword" (selected), followed by a text input field.
- Author/Editor:** A text input field with the note "keyword; multiple items accepted" below it.
- Publisher:** A text input field with the note "keyword; multiple items accepted" below it.
- LC Classification:** A text input field.
- Series Title:** Radio buttons for "Begins" and "Keyword" (selected), followed by a text input field.
- Approval Note:** A text input field with the note "keyword; multiple items accepted" below it.
- Subject Headings:** A text input field with the note "keyword; multiple items accepted" below it.

On the left side of the page, there is a sidebar with links for "Order Cart", "Select Cart", "Export Cart", "Clear Form", "Retrieve Parameters", "Go", and "YBP Library Services". The footer of the page displays "GOBIFROD1 2.02.016.A" and the system tray shows "Internet" and "100%" zoom.

To see a list of titles not purchased by the consortium, you should mark the button next to "Titles not acquired by consortium". You can refine the search further by selecting date range, LC class range, publisher, interdisciplinary topic, etc. One note: If you want to include Popular, Basic Studies and Juvenile content levels, you will need to mark those you would like.

I ran a search of all titles not bought in the PNs since the beginning of the year. I did not include PROF, Basic Studies or Juvenile titles and excluded eBooks. This gave me a set of 133 titles. You can use this list as is or you can use some of the sort options. The sort function is found under the Filter above the GOBI record. If you click on where it says "Sorted by" you will be given a list of sort options. I would suggest sorting by LC classification or quantity sold. Quantity sold will list the best sellers for all of YBP.
