

Show PNX Bookmarklet for Primo

Create a new bookmark in your browser but edit the Name and URL values to the following:

- **Name:** Show PNX
- **Description (optional):** The PNX (Primo Normalized XML) file is the record Primo uses. To see it, open the details tab for the record in a new tab or window, then click on this bookmarklet.
- **URL / Location (copy and paste):**

```
javascript:function o(){window.open(location.href+'&showPnx=true',"PNXRecord");o()};o()
```

Save and add this to your bookmarks bar, and you're done!
